Personal Summary

A talented, student studying the level 2 JPQ in Computing at Highlands. A proven record to deliver an effective and appropriate project within agreed timescales. Able to work as part of a team with great communication skills.

I've just recently moved from France after 13+ years of French education and am now looking for a suitable week-end job in the IT sector.

Work Experience

Graphic Design Studio / Paris, France / Mon 19 - Fri 23 December 2017

A week in Paris with Adrien Benard ⤴, a graphic designer, working on advertisements for Perrier, Orange, Air France, Citroen, Heineken, etc… I learnt a lot from this week, noticeably a profound understanding of Photoshop, and a professional approach to edit and change images.

Web Developer / Northampton, UK / Wed 19 - Sun 30 June 2019

For just over a week, I went to my uncle's who needed a new website. I ended up creating this ⤴. I learnt quite a lot from that, including communication with him and the hosting company. I sadly only manged to setup a HTML based website, although I wanted to do PHP to add a mailing system for bookings and business inquiries.

Currently Studying

I'm currently studying the level 2 JPQ in Computing at Highlands College. I plan to continue at least to a HND or more. My dream job would be between a Graphic Designer, Full Stack Web Designer or a Data Scientist. I'm also passing my IGCSe English this June.
